

MOTION BY MAYOR MICHAEL D. ANTONOVICH

JULY 25, 2006

**ENERGY CONSERVATION TIPS**

The continuing heat wave has put a strain on the power systems throughout Los Angeles County. The Internal Services Department has developed a list of energy conservation tips. County departments should take all steps to reduce energy usage during this heat wave.

**I, THEREFORE, MOVE** that the Board of Supervisors:

1. Find that the information in this motion occurred subsequent to the posting of the agenda; and
2. Direct the Internal Services Department to send an emergency e-mail to all County employees reminding them to use all energy tips developed by ISD, as well as those developed by individual County departments.
